

Hal Denton
Vice President, Product Development
Enfora, L.P.

Hal Denton is Vice President of Development for Enfora, L.P., where he is responsible for research, development and launch of the company's family of wireless solutions. He has been successful in leveraging Enfora's core technology by adding user-friendly functionality and applying it to leading edge wireless products such as TicTalk™. Developed with parents and educators in mind, TicTalk is a parent-controlled cell phone for kids age 6 and up that was designed specifically with security and education in mind.

Mr. Denton's more than 20 years of experience include serving as an executive for leading companies in the telecommunications, call center, software, Point of Sale technology (POS), IT management, video processing, and Voice over Internet Protocol (VoIP) sectors. During his tenure with Intecom Inc., he ran multiple operations within the \$100 million networking company, including business development, product management and marketing. In addition, he was part of the team that took Intecom public in 1982 and was heavily involved in the creation and sale of the company's Selsius VoIP unit to Cisco.

Mr. Denton holds a Bachelor of Science degree from Tennessee Technological University. In his spare time, he enjoys snow skiing, biking and travel.
